Re: *Agere Systems, Inc., et al. v. Advanced Environmental Techn. Corp. et al.*  
No. 02-3830

Dear Judge Davis:

I have enclosed an interest calculation revised in accordance with Your Honor's instructions in the August 18, 2008 Findings of Fact and Conclusions of Law. Interest is calculated in accordance with CERCLA at the Superfund rate from the date of the Complaint or the date of the expenditure, whichever occurred later. Specifically, interest begins running on response costs incurred prior to June 18, 2002 as if those costs were incurred on that date and on costs incurred after June 18, 2002 as of the date the invoice for those costs was paid. The "past costs" date of December 31, 2007 and amounts of response costs stipulated by the parties to have been incurred as of that date included a few invoices for costs for work in 2007 but actually paid in early 2008. Interest is included up to August 22, 2008, which is the date the final judgment is expected to be entered.

The actual amount of each response costs payment was reduced by 20% so that the interest is calculated only on 80% of that payment. This revision is reflected under the column entitled "80% of Costs." The response costs payments for OU-1 work and one of the payments to EPA for its past costs were first reduced to reflect the fact that those payments were made from OU-1 group accounts, and thus partially funded by NRM Investment Company and Worthington Industries. We determined the percentage of those costs that were paid by NRM and Worthington using the Facts Stipulated by All Parties and reduced each payment by that percentage so that interest is not calculated on any sums paid by NRM or Worthington. This

The Honorable Legrome D. Davis, USDJ

revision is reflected on the attached interest calculation under the column entitled  
"NRM/Worthington Adjustment."

Respectfully submitted,
